Providing access to the sea for those people living with disability

Hello Everyone,

The picture opposite just about sums up our feelings about COVID 19! Not that it helps the "Clairvoyant's" business much!

Fundraising!

The activity that pre-occupies our thoughts right now more than ever. COVID ensured that this year's plan had to be abandoned, and a whole new range of initiatives have had to be devised to ensure that we can run our new boat equipped with incredible new systems, and be fully COVID compliant, which is vital to give our deserving passengers confidence!

You would hope everyone would be thrilled to see and appreciate this young visitor to our shores.

No doubt you will be horrified to hear as I was, that some children and apparently their parents too, for whatever reason, thought it would be a good idea to throw stones and pebbles at it and drive it back into the water! I despair of some people!

The Majestic Queen Mary 2 "garaged" in Weymouth Bay. Sad to see amongst 9 others but they are proving to be a major tourist attraction.

Really missing you all!

I would just like all our passengers to know how much we are missing them. Its been such a hot sunny summer, with much more than usual to see with all the cruise ships, dolphins and seals. Its so frustrating not being able to go to sea with you. But rest assured we are already working hard to make sure that next season everything will be ready to welcome you back with whatever COVID precautions are required for you to feel happy and safe. Stay well,
Dirk Aldous
Chairman/Skipper

WORK ON OUR NEW BOAT CONTINUES!

Despite all the difficulties, our builder is still managing to move forward with MV FREEDOM 2.

Not quite in the league of the Queen Mary 2 but just as exciting from our point of view. As you can see from the robustness of the hull she will be a very sturdy vessel. Safety, comfort, enjoyment and as much real benefit to our passengers as we can manage in a whole variety of new ways, will be our ambition when she finally arrives.
